**Subject:** MI Senate Insurance Committee: SB 625 Support

Dear Jackie,

The American Society of Clinical Oncology (ASCO) strongly supports SB 625 as introduced by Sen. Geoff Hansen. This important legislation would help ensure that cancer patients in Michigan can access oral cancer drugs under the same general cost sharing rules that apply to intravenous and injected anticancer drugs. Please register ASCO as supportive of SB 625 for the Senate Insurance Committee hearing on the legislation scheduled for January 27. Thank you.

Best,  
Jenn
